THE DAILY NEWS.

Newport:

THURSDAY, DECEMBER 23, 1847.
W. O. F. JACKSON, 97-THAMES-ST.

For the following is the Report of the Commissioners of the Asylum, in this town, made to the Town-Meeting on Tuesday last, relative to the Insane persons in that Institution,—and the action of the Town thereon, in regard to sending them to the Butler Hospital.

To the Freeman of the Town of Newport.

Considering the universal interest which pervades the people of our State, at the present time, upon the completion and occupancy of that valuable and much needed Institution, the "Hospital for the Insane," and the generous and earnest desire so nobly and freely manifested by the friends of afflicted humanity in our own community, the Commissioners of the Newport Asylum deem it an imperative duty, as well as a gratifying privilege, to call upon this meeting of the Freeman, and ask for instructions as to the course which it will be proper for them to take in regard to this benevolent movement.

Since this subject has been before the public, the Commissioners have not allowed themselves to await the urgent appeal of the Philanthropist, but have been making the necessary enquiries,

to be prepared to furnish the Freeman in Town-Meeting assembled, with all the information that may be desirable; they have required the attending physician to furnish them with a full report of each case, with such particulars as he could collect, together with his opinion as to the prospect of relief of mitigation of their disease, by the benefit of such an Institution; by that Report we find that there are twenty-six cases of confirmed Insanity, at present, under our care, varying very much in their nature and duration,—some from two to eight years, including some a whole life. Sixteen of these cases he pronounces incurable; one half are hopeless, and nine proper subjects for an Insane Hospital. He further says there are six of those pronounced incurable, whose situation would be more comfortable by the watchful care of such an Institution. Could a part or all of this Asylum be used for the relief of the horrors and discomforts so close an association with the raving maniac, improving the condition of the poor, and keeping them from the commingling influence of a wild and desperate humanity.

The Trustees have advertised the rate of board for those set by the Towns of this State, at two dollars per week, to which must be added the extra expence of clothing, transportation, &c. &c. The commissioners do not expect much can be saved in the expence of our Asylum, by sending those recommended; therefore, it will be necessary that an appropriation be made to meet the case.

We therefore recommend this matter to the Freeman, trusting that their decision will be in accordance with our duty to this unfortunate class of our fellow citizens;

and that they will so direct and empower the Board to act in the present case, and upon all other cases that may arise from time to time, in relation to this entire subject, to general satisfaction.

This valuable Institution, built by the munificence of private individuals, and placed before the people of this State, furnished with advantages for the relief of human suffering, second to none in this country, is prepared and always in readiness to receive and administer proper treatment, to each of the citizens of this State as may be unfortunate as to be deprived of their reason, that noble attribute of our nature, in a measure be assisted and sustained by a liberal disposition of all the corporations now in this State, by boarding as many of their dependent Insane poor, as can be well permitted, thereby continuing to exert inimitable and exceeding benefit, and the advantages desirable for such a destination.

Approved by the Board, and respectfully submitted.

W. M. TEW TILLEY.

Chairman Board of Commissioners
Newport Asylum
Dec 17th, 1847.

The above Report was prepared by William C. Lazzaro, Esq., one of the Commissioners; the report was received.

The Hon. Edward W. Lawton offered the following resolution, which was seconded by the Hon. Henry Y. Cranston, and unanimously adopted.

Resolved. That the whole subject of making provision for disposing of the Insane poor be committed to the management of the Commissioners of the Newport Asylum, and they are hereby authorized and empowered to place such, (both of the present and future inmates of our Asylum,) at the Butler Asylum for the Insane, as may in their opinion contribute to the cure, or increase the comfort of that unfortunate and stricken portion of our fellow-citizens.—

And said Commissioners are hereby authorized to draw on the Treasury for payment of expenses incurred thereby; in the same manner as for all other expences for supporting the poor under their charge.

LATER FROM MEXICO.

The cabinet of General Atayá, President of Mexico, consists of Villamil, for the War Department; Lacunza, for the interior; Peña, for Foreign Affairs, and La Rosa, for the Treasury.

The British courier reached Vera Cruz the first of December, from the Capital, having left there November 29th.

The Peñes Commissioners from Querétaro at the Capital on being referred to Washington, in relation to negotiations for peace, exhibited much disappointment—having expected to meet a different reception.

The northern States of Mexico are in favor of prosecuting the war, and the supreme government being in favor of peace, it is expected that Santa Anna or Parédez will be chosen by these States to lead the war movements.

The Province of Zacatecas is in favor of peace.

Gen. Herrera is to be superseded and the command of the army is to be assumed by Gens. Felsola, Arista and Minoa.

The Cumanchee Indians are reported as descending in a large force upon the Mexican settlements, robbing and murdering in every direction.

We think it highly probable that the present Post-Office law relative to newspapers will be repealed by Congress during the winter. Notice has already been given by one of the members that he shall introduce a bill on the subject, at an early day, to the effect that the whole Press of the Country will raise the war cry, and thunder in the ears of the members, the opinions of their constituents. A more obnoxious and rascally law was never passed, and it never would have been, had it not been tucked on to the tail of an important bill of a different nature; it was thus struggled through to the dissatisfaction of everybody, and we venture to say that the law has not a single friend in the country, except, perhaps, Cave Johnson, who instigated it.

The lecture this evening before the Association of Mechanics and Manufacturers, will be delivered by the Rev. Mr. Osgood, of Providence. This gentleman is well known in our community, and we doubt his theme, whatever it may be, will be treated in a highly interesting and instructive manner.

FAIR.—The Ladies Convocation Society, of Zion Church, hold a Fair at the house next South of the residence of Captain Stephen T. Northam, in Thames street, commencing this evening, and continuing through to-morrow and the evening. They have an excellent assortment of beautiful articles which will be for sale; refreshments will also be for sale, in an adjoining room. We advise our readers to visit the Fair, and thus patronize a most laudable object, the proceeds of which is appropriated to benevolent purposes. There is a Post Office attached to the Fair, and all our young friends will probably find interesting letters in it for them.

Snow.—Snow commenced falling yesterday afternoon at about 1 o'clock, and continued till 10 in the evening, some of the time very moderately, so that we have about two inches of snow this morning.

Mr. Horace Greeley, Esq., delivers a free lecture this evening, in Providence, before the Union of Associationists.

COL.—The schooner Albert Hall, of Providence, bound to Philadelphia, was sunk off Fire Island, last Monday morning.

State Louis Philippe.—This vessel has been got off the Nantucket shore and towed into Edgartown.

THIRTYTHREE CONGRESS—FIRST SESSION.

SENATE.—Monday—Mr. Hannegan of Indiana gave notice of his intention to introduce a bill to establish Territorial government in Oregon.

Mr. Calhoun of South Carolina, called up his several resolutions, and a spirited debate ensued thereupon.

Gen. Cass of Michigan gave notice that the Military Committee, at an early day, would bring forward a bill for the increase of the Army.

Mr. Calhoun here deplored the fate of Mexico in quite a pathetic strain.

The death of the late Mr. Dromgoole was announced in a message from the House and a eulogy delivered on his character and the usual resolutions passed.

The Senate adjourned.

HOUSE.—Monday—The House were engaged all day in reading resolutions relating to the war, improvement in rivers and harbors, exploration of the Dead Sea, Santa Anna's return to Mexico; the substitution of dimes and half dimes for eights and sixteenths, &c. &c.

SENATE.—Tuesday—A bill to report the pilot law of 1837 was read twice.

A resolution was adopted, directing the committee on judiciary to inquire what legislation was necessary to give efficacy to the treaty existing between this country and France, for the surrender of fugitive from justice.

The Senate adjourned.

HOUSE.—Tuesday—The several States were called in their order, and numerous memorials, petitions, resolutions and notices were introduced, and severally referred.

A memorial was presented for repealing the laws recognizing slavery in the District of Columbia, and laid over for further consideration.

Mr. Botts of Virginia, introduced a resolution calling on the President to furnish information relative to the war.

The resolution of Mr. Adams was adopted, calling on the Secretary of State for information concerning the claims of Mexico under the convention of 1839.

Mr. Vinton of Ohio from the Committee of Ways and Means reported a bill for an appropriation to supply the partial deficiency for subsistence during the year ending June, 1848.

It was referred to the Committee of the Whole.

The resolution offered yesterday by Mr. Richardson, in favor of the War, came up for consideration.

Resolutions of an opposite character were offered as a substitute.

The previous question was moved and not sustained—90 nays, 102 yeas.

They lie over.

Mr. Wentworth of Illinois, offered a series of resolutions deejuring that the general government was empowered to construct harbors and improve rivers and for the protection of the Navy and of commerce and for national defences.

The previous question was sustained and the resolutions were adopted by a vote of 138 to 51.

Robert Smith introduced a bill for the completion of the Cumberland road through Ohio, Indiana, Illinois, and Missouri.

The House adjourned.

53.—A highly intellectual and select audience listened to Mr. Moore's Lecture on the formation of Language, at Armory Hall, on Tuesday evening, with profound attention. Mr. Moore understood his subject fully, and treated it with a masterly hand. This was the second of a course of three Lectures, and the subject on this occasion was, more particularly "the formation of parts of speech." The concluding Lecture of the course will be given at Armory Hall next Tuesday evening.

MARTIN HARE.—The trial of this man for bigamy will be one of the features of the next term of New York Oyer and Terminer. Last week he was seen in Broadway, in company with one of the star police, visiting several stores, and calling upon his friends.

54.—Col. Duncan has also been arrested by Order of Gen. Scott, for reflecting upon the Commander-in-chief, in his correspondence, which has fallen into the General's hands.

55.—We are indebted to the Hon. B. B. Thurston for a copy of the Annual Report of the Secretary of the Treasury on the state of the finances. Thank you, Sir.

IMPORTANT FROM SANTA FE.—Intelligence has been received from Fort Mah with Santa Fe dates to the 25th ult., giving an account of a most frightful massacre of Indians.

On the 25th, about one hundred Pawnee Indians made their appearance in the vicinity of the Fort, and were invited to enter, which they did. While in the Fort, the Indians had their suspicions aroused that harm was intended, by certain movements of the troops, and attempted to make their escape; in so doing, seven were killed and fifteen wounded, five mortally. Col. Gallispie, the commander of the fort, was absent at the time. No cause is assigned for this outrageous conduct.

56.—The Union publishes a letter from Monterey, which says that 170 mules laden with gold dust, valued \$70,000, had been captured on their way to San Luis Potosi.

57.—A complimentary ball and supper are to be given to Lieutenant Sweeny, who has just returned from Mexico, where he lost an arm at the battle of Cherubusco, by the printers of New York.

58.—In Taunton, Mr. S. B. King was knocked down in the evening near his house and severely wounded. The Democrat records other instances of personal attacks besides several burglaries, to prove that crime is on the increase in taunton.

59.—A note from a Washington correspondent says the Fremont trial has already cost the Treasury \$60,000, and it will end where it began.

60.—NEW YORK TRACT SOCIETY.—The report of the New York City Tract Society shows that the tracts they distributed during the year have been 1,001,553, containing 4,121,767 pages of truth, important to the salvation of the soul. 1,887 Bibles and 790 Testaments have been supplied to the destitute; 4,921 volumes have been lent, 2,361 children gathered into Sabbath and 300 into public schools; 141 persons judged to unite with Bible classes and 2,000 to attend Church. 549 temperance pledges have been obtained; 1,580 district prayer meetings held; 35 backsliders reclaimed; 178 persons hopefully converted; and 117 converts added with Evangelical churches.

61.—Hon. Dixon H. Lewis has been re-elected to the United States Senate from Alabama.

WINTER evenings and YOUNG'S Variety
Store from pleasant associations to the in-
habitants of Newport. There is nothing, perhaps,
that can contribute to the comfort of all that
cannot be obtained at this store, and all low,
and a great many such less than can be bought
elsewhere in Newport. For example, we will
show the following prices and every article is war-
ranted to be of the best quality.

Western Apples from \$1.75 to \$2.12 per bushel;
shell-barks \$2 per bushel; peanuts \$1.62 per
bushel; chestnuts from four to five dollars per
bushel; almonds one shilling per pound; new
raisins, figs, dates and currants 12c per lb. 1 pound 5
we sell these last named articles at wholesale prices.

Prunes 20c per pound; grapes 25c per
pound; new cranberry Bets; preserved ginger \$1.10 per jar,
or 30c per pound, in small quantities; candies
and all kinds of confectionary cheaper than they
have ever been sold at any other store in town, at
wholesale and retail, always fresh and of the
finest quality; for the truth of this we wish every
one to come and judge for themselves.

This is no idle advertisement merely to draw
people to my store to disappoint them, but a plain
statement of facts, which all may ascertain by calling.
Also several kinds of Cough Candy, warrant-
ed equal to any now in use, for the cure of all
kinds of complaints arising from colds.

Fancy articles and toys of every description, in
any quantity, such as silk purses, pocket books, el-
egant cases, pocket knives, scissors, razors, razor
stropes, hair, clothes, tooth, and shoe brushes; fancy
work boxes, walking canes, dominoes, dice, con-
versation cards, French and Highland do, combs
of all kinds, cologne, hair oil and pomatum, cigars,
tobacco, and everything that is ever kept in a con-
fectionary and variety store.

New sweet cider on draught or by the barrel.

THE DAILY NEWS.

Newport:

THURSDAY, DECEMBER 23, 1847.
V. B. E. JACKSON, 97-THAMES ST.

63-The following is the Report of the Commissioners of the Asylum, in this town, made to the Town-Meeting on Tuesday last, relative to the Insane persons in that Institution,—and the action of the Town thereon, in regard to sending them to the Butler Hospital.

To the Freemen of the Town of Newport.

Considering the universal interest which pervades the people of our State, at the present time, upon the completion and occupancy of that valuable and much needed Institution, the "Hospital for the Insane,"

and the generous and earnest desire so liberally and freely manifested by the friends of afflicted humanity in our own community, the Commissioners of the Newport Asylum deem it an imperative duty, as well as a gratifying privilege, to call upon this meeting of the Freemen, and ask for instructions as to the course which it will be proper for them to take in regard to this benevolent movement.

Since this subject has been before the public, the Commissioners have not allowed themselves to await the urgent appeal of the Philanthropist, but have been making the necessary enquiries, to be prepared to furnish the Freemen in Town-Meeting assembled, with all the information that may be desirable; they have required the attending physician to furnish them with a full report of each case, with such particulars as he could collect, together with his opinion as to the prospect of relief of mitigation of their disease, by the benefits of such an Institution; by that Report we find that there are twenty-six cases of confirmed Insanity, at present, under our care, varying very much in their nature and duration,—some from two to eight years standing, some a whole life. Sixteen of these cases he pronounces incurable; one infatuated and nine proper subjects for an Insane Hospital. He further says there are six of these pronounced incurable, whose situation would be more comfortable by the watchful care of such an Institution. Could a part or all of this

63-We think it highly probable that the present Post-Office law relative to newspapers will be repealed by Congress during the winter. Notice has already been given by one of the members that he shall introduce a bill on the subject at an early day.

The Province of Zacatecas is in favor of peace. Gen. Herrera is to be superseded and the command of the army is to be assumed by Gens. Fabela, Arista and Minoa.

The Camanchee Indians are reported as

descending in a large force upon the Mexican settlements, robbing and murdering in

every direction.

present Post-Office law relative to newspapers will be repealed by Congress during the winter. Notice has already been given by one of the members that he shall introduce a bill on the subject at an early day.

The previous question was moved and not sustained—90 nays, 102 yeas.

Mr. Wentworth of Illinois, offered a

series of resolutions declaring that the general government was empowered to construct harbors and improve rivers and for the protection of the Navy and of commerce and for national defences.

The previous question was sustained

and the resolutions were adopted by a vote of 139 to 51.

Robert Smith introduced a bill for the

completion of the Cumberland road through

Ohio, Indiana, Illinois, and Missouri.

The House adjourned.

63-A highly intellectual and select audience

listened to Mr. Moor's Lecture on the

formation of Language, at Armory Hall, on

Tuesday evening, with profound attention.

Mr. Moore understood his subject, fully,

and treated it with a masterly hand. This

was the second of a course of three Lectures, and the subject on this occasion was,

more particularly, "the formation of parts

of speech." The concluding Lecture of the

course will be given at Armory Hall next

Tuesday evening.

for bigamy will be one of the features of the

next term of New York Oyer and Terminer.

Last week he was seen in Broadway, in

company with one of the star police, visiting

several stores, and calling upon his friends.

by Order of Gen. Scott, for reflecting upon

dence, which has fallen into the General's

Hoorah for Christmas, clear the track,
For old Santa Clause is coming back
back.

My friends I do up wear often more,
To welcome to our favorite store.
The children's friend, old Santa Clause,
That all may be supplied.

He sent me a letter a month ago,
Stating that he would like to know,
If I would arrange it so,
For him to stop with me.

Of course I quickly did reply,
And on my word you may rely,
I never let such things pass by.
For that would never do.

So he'll be here by Christmas day,
With all his goods so rich and gay,
And they will all be given away
For a trifling sum.

And so, good friends I hope all
Will be on hand to give call,
At the store South the Town Hall,
Where you may suited be.

The great and only Successful Remedy for the cure of Consumption.

IS Dr. E. W. Vondersmith's INDIAN COUGH BALM and LUNG BALSAM.

READ—ED.

Disease of the Lungs and Throat cured.

White Plains, April 29, 1847.

This is to certify, that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of thick mucus and blood, from which I was reduced to a perfect skeleton; my throat was very much ulcerated. I had larva enzio applied to my throat twice a week, but received no benefit; I have used, one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vondersmith's Medicine. He insisted, upon my trying Dr. V. and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow fetid matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine; I am confident it will cure you. Your sincere friend,

EDWARD C. THOMPSON,
Sworn before me this 21st day of April, 1847.

A. M. MCKEE, Mayor of the city of N. Y.
Inflammation of the Lungs.

New York, June 19, 1847.

Pr. Vondersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago, I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing spells, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats, had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vondersmith's Indian Cough Balm and Lung Balsam. I consented; when I had used it about one week, my cough decreased, considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vondersmith's invaluable medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but what is just, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,

JAMES B. HENDERSON,
No. 703 Washington street.

Consumption.

Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia, to use Breathing-tin. I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine, recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c., ROBERT T. WILLSEY.

THE Rev. B. HIBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them; if you do not find that one of these pills does more good than four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Min'l the Directions, which go with each box.

Every agent has circulars of these pills to give away.

Half a Pill is the usual dose, though some require one Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pill are purely VEGETABLE, and may be taken under all circumstances, without regard to drinks or diet.

The American Improved Huzian Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to miracu-

lous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and natural in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or delirious, and asks simply a faithful trial as a test of its curative properties.

During the last twenty years it has worked its way into extensive use, *wholly upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—saw occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessarily compelled greater attention to its business; and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and *knows it to be valuable in most of the complaints incident to the human system*. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid: Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture, never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, carries a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, dispenses the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGLE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by WM. BOGLE, accompanies each bottle.

GENUINE BEAR'S OIL

Highly Perfumed.—Perhaps our ladies and fashionables are not aware that three-quarters of

the "Bear's oil," (so called) with which they anoint their locks, wondering that it does them so little good, is nothing in the world but hog's lard, so highly scented as to escape detection, save on close examination. This, however, is simply the fact, and one that ought to be known. The only safe way is to purchase your Bear's Oil of HENRY JOHNSON, who gets it direct from Canada and the North Western Territory, and who never sells an ounce until he knows it to be genuine. The real Bear's Oil is a wonderful beautifier and strengthener of the hair, and should be used by every one desirous of beautiful locks.

Purified and perfumed for toilet purposes, by Henry Johnson Chemist and Druggist, 273 Broadway, corner Chambers-st, in the granite building. Sold in Newport by R. R. HAZARD, near the Court House.

Persons should therefore always ask for Clicker's sugar-coated pills, and take no others, or they will become the victims of a fraud. 25 cents per box, or five boxes for \$1.
